

CHANDRASHEKHAR PRAJAPATI

Android and React Native Developer

+91 6265925896 | chandrashekharprajapati92@gmail.com | Portfolio | LinkedIn | Indore

SUMMARY

Mobile app developer with 3.8 years of hands-on experience. Built apps that improved speed, saved time, and solved real user problems. Focused on product quality and clear, maintainable code.

EXPERIENCE

Android Developer

Hammoq infosystem

01/2024 - 02/2025 | Indore

- Integrated TensorFlow Lite and ML Kit for real-time brand detection, improving inventory categorization accuracy by 35% and reducing processing time by 40%.
- Deployed app on the Play Store with Retrofit-Room caching, reducing data latency by 25%, and enabling seamless inventory tracking.
- Increased overall app performance by 45% by optimizing APIs and implementing caching.

Android & React Native Developer

Daizy Info System

01/2023 - 08/2023 | Indore

- Developed cross-platform apps using React Native and Java, reducing dev time by 30% through reusable components
- Integrated Agora SDK for real-time calls and Razor pay for payments, increasing user engagement by 25%
- Optimized performance with Retrofit and SQLite, cutting data load time by 40% across devices

Android & React Native Developer

Katsam Soft Pvt Ltd

03/2021 - 01/2023 | Indore

- Built and deployed 3 Android apps using Java (MVC/MVP), integrating QR scanning and Web View, with live releases on the Play Store
- Developed cross-platform apps in React Native (ES6) using Redux and Async Storage, including one with 5K+ downloads and a 4.5★ rating
- Integrated Razor pay for payments, utilized REST APIs and Firebase, and managed version control with GitHub for smooth collaboration

PROJECTS

MAA Health and Care

https://play.google.com/store/search?q=maa+health+and+care&c=apps&hl=en

Complete pharmacy e-commerce app built using React Native.

- Solo-developed app end-to-end with UI/UX, Redux-based state management, and API integration.
- Enabled prescription uploads for auto cart-fill and real-time doctor appointment booking.
- Integrated product listing, cart, and checkout flows tailored for pharmacy operations.
- Tech Stack: React Native, Redux, Axios, Firebase, REST APIs.

Payall Electrics App

https://play.google.com/store/apps/details?id=com.payallelectrics.dealer.electrician&hl=en

E-commerce Android app for electrical goods, built with Java.

- Developed full shopping flow with product browsing, secure purchases, and token reward system.
- Integrated QR scanner and Retrofit-based API communication with a clean UI.
- Tech Stack: Java, Android SDK, Retrofit, SQLite, REST APIs.

SKILLS

Languages & Platforms

Kotlin	Java	JavaScript	XML
Android SDK	React Native	Firebase	

Architecture & Frameworks

MVC	MVP	MVVM
Clean Architecture	Redux	
Context API		

Libraries/Tools

Jetpack Compose		Retrofit	Room
Hilt	Dagger	Coroutines	LiveData
Flow	Git	GitHub	CI/CD
GitHub Actions		Jenkins	
Google Play Console			

KEY ACHIEVEMENTS

★ Successful App Releases

Developed and deployed cross-platform applications that garnered thousands of downloads and received high ratings on the Play Store

STRENGTHS

★ Mobile Development Expertise

Expert in mobile application development using Kotlin and Java, with a strong foundation in various frameworks and third-party services

♥ Cross-platform Development

Proficient in cross-platform development, creating efficient and engaging mobile applications that bridge different technologies

EDUCATION

Master's Degree

LNCT Vidhyapeeth University

07/2022 - 07/2024 | Indore

Bachelor's Degree

Sanskar College Of Professional Studies

07/2019 - 07/2022 | Indore
